

82 SPEEDWAY RAINOUT POLICY:

No one likes rain on race day. But here is the track policy if, and when, it intervenes. If the races rain out before the completion of the heat races, hold on to your ticket stub, as it will be valid for the next scheduled race of same ticket price value (in other words, if tickets that night were \$15, the next event you will have a \$15 credit when you redeem your ticket stub from the previous event). The exact same procedure will be in effect regarding pit passes.

If the races rain out after the heat races, the event is considered complete, and any remaining races will not be rescheduled and all drivers will receive start money for their scheduled division that night (for any of the feature events that rained out). There will be no grandstand tickets valid for a future date if races are rained out after the completion of heat races.
